

Glass Water Pipes.

Various English towns are introducing water pipes made of glass and covered with asphaltum with highly satisfactory results. These pipes are doubtless the most sanitary, and while the first cost may be somewhat in excess of iron and lead, yet if properly laid and protected they should last for centuries and thus be the most economical in the end.

More Bundles of Nerves.

Some peevish, querulous people seem more bundles of nerves. The least sound agitate their sensibilities and rattle their tempers. No doubt they are born so. But may not their nervousness be ameliorated, if not entirely relieved? Unquestionably, and with Hostetter's Stomach Bitters. By cultivating their digestion, and insuring more complete assimilation of the food with this admirable corrective, they will experience a speedy and very perceptible gain in nerve quietude. Dyspepsia, biliousness, constipation and rheumatism yield to the bitters.

A glass of hot milk and a few peanuts make a good luncheon before retiring.

A Chance to Make Money.

A live Southern insurance company, four years successful operation, wishes a live agent in every county to write life insurance. Six different forms, combination, life and accident policies; most attractive insurance ever written; no trouble to sell; good commissions. For information address 707-709-711 Equitable building, Atlanta, Ga.

A Press Poem.

EE-M. Medicated Smoking Tobacco and Cigarettes. Are absolute remedies for Catarrh, Hay Fever, Asthma and Colds; Besides a delightful smoke. Ladies as well as men, use these goods. No opium or other harmful drug used in their manufacture. EE-M. is used and recommended by some of the best citizens of this country. If your dealer does not keep EE-M. Send 15c. for package of tobacco and 5c. for package of cigarettes. Direct to the EE-M. Company, Atlanta, Ga. And you will receive goods by mail.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHERRY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

I use Pile's Cure for Consumption both in my family and practice.—Dr. G. W. PATTERSON, Inkster, Mich., Nov. 5, 1894.

It afflicted with sore eyes use Dr. Isaac Thompson's Eye-water. Druggists sell at 25c. per bottle.

THE CHIEF THING

In Maintaining Good Health is Pure, Rich, Nourishing Blood.

The blood carries nourishment and furnishes support for the organs, nerves and muscles. It must be made rich and pure if you would have strong nerves, good digestion, sound sleep, or if you would be rid of that tired feeling, those disagreeable pimples, eczema, or scrofula. No medicine is equal to Hood's Sarsaparilla for purifying the blood. It is a medicine of genuine merit and will do you wonderful good. Try it now.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Change of Heart.

Sweet Girl—I hope you will call again, Mr. Coolhead.

Mr. Coolhead (new admirer)—Thank you, I should be delighted to call very soon again if I were sure of finding you at home.

"Oh, I'm nearly always at home; but let me see—it won't do for you to call Tuesday evening, for that is the night of the home mission meeting; and Wednesday night the Emperor's Daughters meet; and Thursday the Blue Ribbons have a most important session; and Friday is the monthly meeting of the Dorcas club; and Saturday the Browning club—really, I hardly know what day to set; but—"

"Um—do you expect to belong to those societies always?"

"Oh, yes, indeed; I'm a life member of them all."

"Er—I should like to call again soon, but this is our busy season and I shall be confined very closely to the office for several months. Good evening."—New York Weekly.

Summer Pessimism.

There is no such thing on earth as retributive justice.

"Why do you say so?"

"The person who leaves flypaper on a chair is never the one who sits down on it."—Detroit Free Press.

BUCKINGHAM'S DYE

AN EPIDEMIC THREATENED.

NEW CASES OF "YELLOW JACK" IN VARIOUS TOWNS.

MOBILE IS NOW IN DIRE DANGER.

New Orleans Shows Additional Cases of the Dread Disease—People Flee From the Pestilence.

Three new cases of yellow fever were officially announced Tuesday by the board of health of Mobile, Ala.

The announcement caused much more alarm than did the discovery of the first case, which was regarded as sporadic.

The people who can are leaving for points of safety.

Some \$700 worth of tickets to Atlanta were sold during the day by the Louisville and Nashville railroad and outgoing trains are crowded.

The same is true of the trains on the Mobile and Ohio railroad.

Dr. Guiteras left Mobile for Edwards, Miss., ordered thither to investigate the disease prevailing there. He declined to tell what have been his observations, saying he had first to report to the surgeon general at Washington.

The department has sent out the following from Washington:

"From Mobile, Ala.—Dr. Guiteras reports two new cases in one house in the southern part of the city near the locality of the case reported today, and where the disease, Dr. Guiteras says, will to begin assume an epidemic form."

When asked upon what he based his telegram to the surgeon general that there would be a spread of the disease, he said that the city has had a long immunity from the disease and there is much material for it to feed upon.

Jackson's Population Refugeeing.

About half the population of Jackson, Miss., has fled, the exodus being caused by rumors of yellow fever at Edwards, twenty miles west, officially stated Tuesday evening to be yellow fever.

The state authorities have called on Wyman for help.

Business is suspended, though many people here, some of them the best known citizens of the state, refuse to leave. All mails have been ordered fumigated by the health authorities.

The Howard Association has been organized, with Colonel Stewart as president, and is ready for any emergency.

Situation at New Orleans.

At nightfall Tuesday the books of the New Orleans board of health showed the following recapitulation of the yellow fever situation:

There has been reported to the board for investigation twenty-six cases which the attending physicians considered conspicuous. Of these thirteen cases had been found suffering with a harmless fever, five cases were regarded as suspicious but necessary to be further investigated before a definite report could be made upon them; there were no reports as to four cases, and four cases had been pronounced genuine yellow fever, though one of the latter was classed as of a mild type.

The most serious of the four yellow fever cases is located in the neighborhood of the French market.

USED WINCHESTERS.

Miners and Guards Exchange Shots in the Jellico District.

A special from Oswego, Tenn., a small station on the Knoxville and Ohio road in the Jellico mining district, gives account of an encounter Tuesday night between eight United States marshals and the striking miners.

The marshals are special deputies sent to guard the property of the Standard Coal and Coke Company, which is in the hands of United States court receivers. Non-union miners were put to work and trouble came as expected.

A mob marched toward the company's store when they were ordered by the marshals to halt and leave the property, which they refused to do.

The marshals then took refuge in a blacksmith shop and fired upon the mob. The miners retreated, but returned the fire with their winchesters.

WRECKED VESSEL FOUND.

But None of the Big Fortification Guns Were Located.

The wreck of the schooner Agnes I. Grace, which sunk August 6th, with four sixteen-ton guns for the Tybee fortifications on board, was located Tuesday twenty miles southeast of Tybee sea buoy by the tug William F. McCauley. The wreck had moved about 1½ miles from the position buoyed by the United States buoy tender Wistaria.

The deck was sounded in search of the guns, but they were not on board. They evidently rolled overboard when the vessel sunk.

The Grace is fast breaking up.

RUNNING DAY AND NIGHT.

Eagle and Phenix Mills Now Working a Double Force.

No. 1 mill at the Eagle and Phenix plant at Columbus, Ga., is now running day and night. The all-night schedule was inaugurated Tuesday night with a full force.

All departments at this mill are now being run day and night.

This arrangement will continue for some time, at least, and may be permanent.

DENOUNCED BY GOMPERS.

De Declares the Slaughter at Hazelton Was Brutal Murder.

In an interview Saturday, President Gompers of the American Federation of Labor, after denouncing the killing of the men near Hazelton as a brutal murder, said:

"The men were marching in the public highway. They had as much right to march to Latimer or any other place on the public highway as the sheriff or governor of Pennsylvania or the president of the United States. The mine operators in the madness of their supposed power, and in their effort to enslave labor, have used judges and courts to give the color of law to the most flagrant violation of the constitutional rights of the people; sheriffs and deputies, taking their cue from their superiors, have carried out this policy and killed men exercising their rights under the constitution and the law."

"In his published explanation Sheriff Martin makes an effort to secure the favor of our native Americans by repeatedly emphasizing his statement that the miners he killed were foreigners. It may be true that these men were not native Americans, but they were the men brought here by the greed and cunning of the mine operators, and so long as they submitted to being starved, no word as to their foreign birth was heard, but this cry of foreigners is like a cloud of dust raised to obscure the crime. The miners will win their humane and heroic struggle; they deserve to win; their conduct has challenged the admiration of their friends and sympathizers."

LYNCHED WHILE DYING.

Ex-Convict Confessed to Being Miss Chapman's Assassin.

A special from Macon, Ga., says: Dying from a wound through a lung and surrounded by a small detachment of policemen and deputy sheriffs, Charley Gibson, a negro ex-convict, was swung to a limb by a maddened mob near the city Sunday.

Before the rope was placed around Gibson's neck he confessed that he was the man who assaulted Miss Chapman a few days ago, and would not deny that he was Mrs. Couch's assailant of a month ago.

When Gibson received the wound through the lung, of which he was dying when lynched, he was making a desperate resistance against officers who were seeking to arrest him for murder—a crime which he had just committed. The officers who had Gibson had little idea at that time that they were battling with the man who was responsible for one of the most shocking crimes in the criminal history of Macon.

Not until with his dying breath Gibson confessed did his captors know that the assault upon Miss Chapman had been cleared away.

Early Sunday morning Gibson shot Jim Smith, another negro, and was fleeing from the officers for that offense when bullets from Winchester brought him down in a stubborn hand-to-hand fight.

MORE FEVER IN NEW ORLEANS.

Seven New Cases Reported by Board of Health Officers.

A special from New Orleans says: Shortly before noon Sunday the board of health officers declared six of the suspicious cases of fever on St. Claude street to be yellow fever. A couple of hours subsequently the board announced another pronounced case of yellow fever at Mirro and Esplanade streets, also in the lower part of the city, but a mile or more away from the infected square.

The announcement of the first six cases as yellow fever was not unexpected, although it was hoped from the delay on the part of the experts that these cases were simply of bilious malaria. No general alarm has resulted, although the news rapidly spread through the city. The authorities do not believe that the situation is materially worse than it was four or five days ago, and they are still confident of their ability, with modern sanitary appliances, to successfully quarantine the infected district.

General Ruggles Retired.

A Washington dispatch states that Adjutant Ruggles was retired Saturday on account of age, and Colonel Samuel Breck was made a brigadier general and appointed adjutant general of the army.

KLONDIKERS MAY STARVE.

A Shortage of Food Supplies in the Interior Reported.

The steamer Humboldt arrived at Seattle Monday morning from St. Michaels. She brought fourteen passengers and about \$15,000 in gold.

The Humboldt also brings back advice which reiterates the stories of the untold wealth of Klondike and Yukon and verify the previous rumors of the shortage of food supply in the interior.

There will be privation, sickness, starvation, scurvy and death on the Yukon this winter is what the returning gold hunters all say. Only seven passengers of the Humboldt had money.

SOUTHERN CASE IS POSTPONED.

The Date of Hearing Has Been Changed to November.

A special from Macon, Ga., says: The case against the Southern railway brought by merchants of Macon to test the validity of the combination, will be postponed from October to some date in November.

Senator Edmunds is employed in the supreme court at the time the case was set and Judge Speer has notified counsel to that effect.

PROPOSITION IS ACCEPTED

AND THE BIG STRIKE TERMINATES IN FOUR STATES.

OTHER SECTIONS NOT AFFECTED.

Workers Have the Advantage—The Shooting of Miners at Hazelton, Pa., Denounced.

The great miners' strike which was declared on July 4th was brought to an end Saturday evening so far at least, as western Pennsylvania, Ohio, Indiana and West Virginia are concerned, by the action of the interstate convention of miners, which was in session at Columbus, O., for four days.

After a day of voting and wrangling, the convention adopted a resolution accepting the proposition of the Pittsburgh operators. The vote was 495 for and 317 against accepting the terms of settlement; 11 votes were not cast. The delegates from Illinois, who had 250 votes, were unanimously against a settlement. Indiana and West Virginia voted solidly to accept the operators' proposition, but there were scattering votes among the Ohio and Pittsburgh delegates against it.

The proposition accepted provides for 65 cents in the Pittsburgh district, all other places where a relative price can be obtained to resume work and contribute liberally to the miners who do not receive the advance, at which places the fight is to continue to a bitter finish. While ten days is provided for the miners to resume work, it is probable many of the Ohio and Pittsburgh mines will be reopened at once.

Some of the Illinois delegates are bitter in their denunciation of the action of the convention; they claim their interests have not been given due consideration.

A resolution was adopted denouncing the action of the deputies in firing into the crowd of striking miners at Hazelton, Pa.

A SENSATIONAL CASE.

Georgia Farmer Re-establishes Slavery On a Small Scale.

The grand jury of Morgan county, Ga., investigated a case the past week which promises to become of the most sensational ever known in the state.

The full extent of the shocking practices charged against one Henry R. Dickerson, a farmer at Rutledge, cannot yet be told; but if half are true, as seems certain, the eyes of a civilized state will be opened wide in wonder and horror.

Dickerson is accused of enslaving tramps, making them, by force and punishment, to work upon his farm; maintaining a small convict camp in which existed horrors far greater than any yet reported from those that exist under the guise of the law.

Rickerson has for some time, it is shown, made a practice of decoying tramps, white and black, and half-witted persons to his house, arresting them and putting them to work on his farm. They were locked up at night and forced to work on Sundays as well as on other days. He claimed to have some authority from the government for so doing and in every instance he said to have succeeded with his victims.

THIRTEEN UNLUCKY TRAMPS.

Seven Killed and Six Badly Hurt in a Freight Wreck.

A special from Van Buren, Ark., says:

A most disastrous freight wreck occurred on the Iron Mountain road at Hanson, I. T., a small town twenty miles west of Van Buren, at 2 o'clock Sunday, resulting in the death of seven men and the serious injury of six others, two of whom will die.

None of the trainmen were hurt. The wrecked train was a local freight. While the train was running twenty miles an hour the forward trucks of one of the cars near the engine broke, wrecking fifteen cars. In the middle of the train was a car loaded with heavy machinery, and it was in this that thirteen men were stealing a ride, and from which seven dead and six seriously wounded were taken by the trainmen shortly afterwards.

JURY PLACES BLAME.

Conductor and Engineer Responsible For Colorado Midland Horror.

A special from Denver, Col., says: Frank Burbank, conductor, and Engineer Ostrander, deceased, of the Colorado Midland railway, are charged by the coroner's jury with being responsible for the frightful wreck which occurred Thursday night. The inquest was held Saturday morning. The jury decided from the evidence that the conductor and engineer attempted to arrive at Newcastle siding upon the time allotted by order of the train dispatcher to the Rio Grande westbound passenger. Conductor Burbank was released on his own recognizance, and after the verdict he was not rearrested.

WEYLER TO BE DEFENDED.

Government of Spain Will Proceed Against Critics.

The Spanish government has decided to instruct the military authorities to take proceedings against officers criticizing the conduct of Captain General Weyler, unless they are either senators or deputies.

The decision is due to the numerous outspoken censures upon Captain General Weyler's management of the campaign in Cuba.

Inactivity.

"But I thought your husband was such an active man?"

"Active! If it weren't for me, I don't believe he'd get up in time to go to bed."

"Ah, well, that's better than some husbands, you know, who scarcely go to bed in time to get up."—Harper's Bazar.

WHY SO MANY REGULAR PHYSICIANS FAIL

To Cure Female Ills—Some True Reasons Why Mrs. Pinkham is More Successful Than the Family Doctors.

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, Joseph her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctor fails to cure the disease? Still, we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Lydia E. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ill with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to complaints, and, being a woman, it was easy for her ailing sisters to pour her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, from the little group of women who sought her advice years ago, a group of her fellow-beings are to-day constantly applying for advice and relief, and the fact that more than one hundred thousand of them have been successfully treated by Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequalled experience in training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female troubles from the simplest local irritation to the most complicated diseases of the system.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of America than any family physician. Any woman, therefore, is responsible for her own sufferings who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Walter Baker & Co. Limited,

Dorchester, Mass.

ARKANSAS LADIES DON'T LIE.

Mrs. Martha A. Johnson.

Malvern, Ark., says: Have used Dr. A. J. Simmon's Liver Medicine 10 years, and find it a great deal better than "Zellin's Regulator" and "Doan's Back Draft." It has been of great benefit to my daughter and niece during their monthly troubles, and I have constructed Menstruation. There should be no home without it.

The Turn of Life.

Between the ages of forty and fifty, great irregularities take place in the periodic discharges for some time before the final cessation, the female usually experiencing sudden flashes of heat, fullness in the head, headache and other evidences of constitutional disturbance. The nervous system sympathetically responds, and there is great irritability and restlessness, the patient is discouraged and has a sense of fullness or suffocation.

At no time in her life does a woman need more constant care and watchful tenderness, nor has there been need for a remedy to invigorate and strengthen her. The bowels should be kept regular with Dr. A. J. Simmon's Liver Medicine, and if Dr. Simmon's Squaw Vine Wine is used during the whole of this critical period, it will invigorate and enrich her blood, soothe and strengthen her nerves and thus relieve the suffering and enable her to pass safely through the dangerous period of life and afford her strength and joy in her declining years.

A. P. Ewton.

Pine Bluff, Ark., writes: Dr. A. J. Simmon's Liver Medicine has been a God send to myself and family for 20 years. It cures Chills and Fevers, Biliousness, Headaches, Sick Stomachs, Indigestion, etc., and "Zellin's Regulator" and "Doan's Back Draft" are no comparison between it and "Zellin's Regulator" and "Doan's Back Draft."

Fullness of Blood in Head.

Where there is great determination of blood to the head, the blood-vessels of the brain become greatly congested, and there exists flushed face, giddiness, especially on stooping, and throbbing pain in the head, increased by movement. It may be caused by living too freely; too late rising in the morning, combined with an inactive life. Menstrual derangements in females will often occasion it. Dr. Simmon's Squaw Vine Wine is especially made for this, and cures it.

CHRONIC DISEASES SUCCESSFULLY TREATED.

Rheumatism, Neuralgia, Bronchitis, Catarrh, Indigestion, etc.

CATARRH of the Nose, Throat and Lungs.

DISEASES PECULIAR TO WOMEN.

Protrusion, Ulcerations, Leucorrhoea, etc. Write for pamphlet, testimonials and question blank.
